

Job's Nursery Deciduous Shrub Detailed List

Allspice, Carolina

Calycanthus floridus

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 5

Height 6 to 9 feet **Spread** 6 to 9 feet **Growth Rate** 3 to 4 inches yearly

Foliage Oval to 5 inches long

Summer Color Glossy Dark Green **Autumn Color** Yellow

Plant Attributes Rounded habit with stiff upright branching. In late spring to early summer; 2 inch wide, fragrant, maroon cluster shaped flowers appear along current year's growth. Flowers are followed by pear-shaped capsules, fragrant when squeezed.

Almond, Pink Flowering

Prunus glandulosa 'Rosa'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 8

Height 5 to 6 feet **Spread** 3 to 4 feet **Growth Rate** 6 inches yearly

Foliage 1 1/2 to 2 inches long

Summer Color Bright Green **Autumn Color** Yellow

Plant Attributes Vase shaped that in spring is covered with 1 inch, double, pompon like, Pink flowers in early spring before the leaves emerge. Then green with leaves most of the year turning to a bright yellow for fall.

Azalea, Arneson Flame

Azalea (Exbury hybrid)

Type Deciduous **Exposure** Filtered Shade **USDA Zones** 5

Height 3 to 4 feet **Spread** 3 to 4 feet **Growth Rate** 4 to 6 inches yearly

Foliage Large, pointed oval

Summer Color New growth Bronze then Bright Green **Autumn Color** Orange-Red Tones

Plant Attributes Rounded with upright branching habit that in late spring to early summer, large ball shaped clusters of Peach Pink with yellow shading flowers emerge from the branch tips. Foliage starts bronze maturing to green; in fall the leaves turn to Orange Red.

Azalea, Arneson Ruby

Azalea (Exbury hybrid)

Type Deciduous **Exposure** Filtered Shade **USDA Zones** 5

Height 3 to 4 feet **Spread** 3 to 4 feet **Growth Rate** 4 to 6 inches yearly

Foliage Large, pointed oval

Summer Color New growth Bronze then Bright Green **Autumn Color** Orange-Red Tones

Plant Attributes Rounded with upright branching habit that in late spring to early summer, large ball shaped clusters of Peach Pink with yellow shading flowers emerge from the branch tips. Foliage starts bronze maturing to green; in fall the leaves turn to Orange Red.

Azalea, Arneson's Golden Solitaire

Azalea (Exbury hybrid)

Type	Deciduous	Exposure	Filtered Shade	USDA Zones	5
Height	3 to 4 feet	Spread	3 to 4 feet	Growth Rate	4 to 6 inches yearly
Foliage	Large, pointed oval				
Summer Color	New growth Bronze then Bright Green		Autumn Color	Orange-Red Tones	
Plant Attributes	Rounded with upright branching that in Late Spring to Early Summer, large ball shaped clusters of Peach Pink with yellow shading flowers emerge from the branch tips. Foliage starts bronze maturing to green; in fall the leaves turn to Orange Red.				

Azalea, Arneson Cameo

Azalea (Exbury hybrid)

Type	Deciduous	Exposure	Filtered Shade	USDA Zones	5
Height	3 to 4 feet	Spread	3 to 4 feet	Growth Rate	4 to 6 inches yearly
Foliage	Large, pointed oval				
Summer Color	New growth Bronze then Bright Green		Autumn Color	Orange-Red Tones	
Plant Attributes	Rounded with upright branching that in Late Spring to Early Summer, large ball shaped clusters of Deep Pink and orange-yellow blotched flowers emerge from the branch tips. Foliage starts bronze maturing to green; in fall the leaves turn to Orange Red.				

Azalea, Arneson Gem

Azalea (Exbury hybrid)

Type	Deciduous	Exposure	Filtered Shade	USDA Zones	5
Height	3 to 4 feet	Spread	3 to 4 feet	Growth Rate	4 to 6 inches yearly
Foliage	Large, pointed oval				
Summer Color	New growth Bronze then Bright Green		Autumn Color	Orange Red Tones	
Plant Attributes	Rounded with upright branching habit that in late spring to early summer, large ball shaped clusters of Soft Yellow-Orange flowers emerge from the branch tips. Foliage starts bronze maturing to green; in fall the leaves turn to a Brilliant Orange Red.				

Azalea, Dawn's Chorus

Azalea (Exbury hybrid)

Type	Deciduous	Exposure	Filtered Shade	USDA Zones	5 to 9
Height	6 to 8 feet	Spread	6 to 8 feet	Growth Rate	4 to 6 inches yearly
Foliage	Large, pointed oval				
Summer Color	New growth Bronze then Bright Green		Autumn Color	Orange-Red Tones	
Plant Attributes	Rounded with upright branching habit that in late spring to early summer, large ball shaped clusters of Peach Pink with yellow shading flowers emerge from the branch tips. Foliage starts bronze maturing to green; in fall the leaves turn to Orange Red.				

Azalea, Golden Flare

Azalea (Exbury hybrid)

Type Deciduous **Exposure** Full to Partial Sun **USDA Zones** 5 to 9

Height 6 to 8 feet **Spread** 4 to 6 feet **Growth Rate** 2 to 3 inches yearly

Foliage _____

Summer Color Green **Autumn Color** Orange-Red Tones

Plant Attributes Rounded with upright branching habit that in late spring to early summer, large ball shaped clusters of Peach Pink with yellow shading flowers emerge from the branch tips. Foliage starts bronze maturing to green; in fall the leaves turn to Orange Red.

Azalea, Tutti Frutti

Azalea (Exbury hybrid)

Type Deciduous **Exposure** Filtered Shade **USDA Zones** 5

Height 6 to 8 feet **Spread** 4 to 6 feet **Growth Rate** 4 to 6 inches yearly

Foliage Large, Pointed oval

Summer Color New growth Bronze then Bright Green **Autumn Color** Orange-Red Tones

Plant Attributes Rounded with upright branching habit that in late spring to early summer, large ball shaped clusters of Peach Pink with yellow shading flowers emerge from the branch tips. Foliage starts bronze maturing to green; in fall the leaves turn to Orange Red.

Bald Cypress, Peve Minaret

Taxodium distichum 'Peve Minaret'

Type Deciduous **Exposure** Full Sun **USDA Zones** 4

Height 8 feet **Spread** 4 feet **Growth Rate** 3 to 4 inches yearly

Foliage Flat, Soft, needle like 3/4 inch long

Summer Color Light Green **Autumn Color** Orange/Brown

Plant Attributes Compact Oval, a great year round accent plant for where regular Bald Cypress can't fit. Rough bark with a light green foliage gives way to an orange fall color in the fall.

Barberry, Concorde

Berberis thunbergii 'Concorde'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 8

Height 2 to 3 feet **Spread** 2 to 3 feet **Growth Rate** 2 to 3 inches yearly

Foliage 1 to 1 1/2 inch long, rounded

Summer Color Deep Red **Autumn Color** Bright Red

Plant Attributes A dense, compact and rounded habit that works well in small beds where you need red foliage color. In Spring small clusters of yellow flowers run along the branches. Small persistent red berries develop and remain through winter to attract birds.

Barberry, Crimson Pygmy

Berberis thunbergii 'Crimson Pygmy'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 8

Height 2 feet **Spread** 2 to 3 feet **Growth Rate** 3 to 4 inches yearly

Foliage 1 to 1 1/2 inch long, rounded

Summer Color Deep Red **Autumn Color** Bright Red

Plant Attributes Small compact and rounded habit that works well in most beds where you need red foliage color. In Spring small clusters of yellow flowers run along the branches. Small persistent red berries develop and remain through winter to attract birds.

Barberry, Golden Nugget

Berberis thunbergii 'Monlers'

Type Deciduous **Exposure** Afternoon Shade **USDA Zones** 4 to 8

Height 15 to 18 inches **Spread** 15 to 18 inches **Growth Rate** 3 inches yearly

Foliage 1 to 1 1/2 inches long, rounded

Summer Color Bright Golden Yellow **Autumn Color** Orange Tones

Plant Attributes A compact mounding habit with yellow leaves for small shady spaces. Has small yellow flowers and small persistent red berries that attract birds.

Barberry, Golden Ruby

Berberis thunbergii 'Goruzam'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 8

Height 2 feet **Spread** 2 feet **Growth Rate** 1 to 2 inches yearly

Foliage 1 to 1 1/2 inches long, rounded

Summer Color Reddish-Purple with Golden edge **Autumn Color** Bright Red

Plant Attributes A neat little shrub with coral orange foliage for small places or a border. It has a rounded habit and as leaves mature they develop gold rings. Fall Color is red tones.

Barberry, Helmond Pillar

Berberis thunbergii 'Helmond Pillar'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 8

Height 4 to 5 feet **Spread** 2 feet **Growth Rate** 4 inches a year

Foliage Small, Round leaves 1 inch long

Summer Color Crimson Red **Autumn Color** Red Tones

Plant Attributes A red-purple plant with a columnar habit to work in narrow spots or to be a columnar interest. In Spring small clusters of yellow flowers run along the branches. Small persistent red berries develop and remain through winter to attract birds.

Barberry, Lime Glow

Berberis thunbergii 'Lime Glow'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 8
Height	5 feet	Spread	4 feet	Growth Rate	3 to 4 inches yearly
Foliage	1 to 1 1/2 inches long rounded				
Summer Color	White-marbled lime green		Autumn Color	Red tones	
Plant Attributes	Rounded with green foliage that has white marbled new growth to give a sunny spot a little contrast. In fall, it explodes into red tones. Has small yellow flowers and small persistent red berries that attract birds.				

Barberry, Lustre Green

Berberis thunbergii 'Anderson'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 8
Height	2 to 3 feet	Spread	2 to 3 feet	Growth Rate	3 to 4 inches yearly
Foliage	1 to 1 1/2 inch long, rounded				
Summer Color	Emerald Green		Autumn Color	Orange to Red Tones	
Plant Attributes	Upright and vase shaped with bright emerald green foliage from spring through summer then it turns to Brilliant Orange to Red Tones. Has clusters of small yellow flowers in spring that develop into persistent red berries, attracts birds.				

Barberry, Rose Glow

Berberis thunbergii 'Rose Glow'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 8
Height	3 feet	Spread	3 feet	Growth Rate	4 to 5 inches yearly
Foliage	1 to 1 1/2 inches long, rounded				
Summer Color	Variegated Red with Pinkish White turning to Red		Autumn Color	Bright Red	
Plant Attributes	An upright vase of arching branches with Purple-red leaves and the new growth emerges Red with Pink and White splashes on the red. Has small yellow flowers and small persistent red berries that attract birds.				

Barberry, Royal Burgundy

Berberis thunbergii 'Gentry'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 7
Height	1 to 2 feet	Spread	2 to 4 feet	Growth Rate	3 to 4 inches yearly
Foliage	1 to 1 1/2 inches long, rounded				
Summer Color	Crimson Red		Autumn Color	Bright Red	
Plant Attributes	A mounded, lower growing barberry where red is needed but not so much height.				

Barberry, Sunstation

Berberis thunbergii 'Monry'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	4 to 8
Height	3 to 4 feet	Spread	4 feet	Growth Rate	3 to 4 inches yearly
Foliage	1 to 1 1/2 inches long, rounded				
Summer Color	Bright Golden Yellow	Autumn Color	Orange Tones		
Plant Attributes	A compact and rounded, sun tolerant yellow leaf Barberry. In fall the yellow foliage goes to brilliant Orange tones. Has small yellow flowers and small persistent red berries that attract birds.				

Bayberry, Northern

Myrica pensylvanica

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3
Height	3 to 4 feet	Spread	3 to 4 feet	Growth Rate	3 to 4 inches yearly
Foliage	Narrow oval up to four inches long.				
Summer Color	Glossy Dark Green	Autumn Color	Yellow		
Plant Attributes	Rounded with a dense branching habit that is a great foundation plant for sandy soil. Produces in Late Summer unusual, pitted blue-gray berry clusters along the stems.				

Bluebeard, Blue Mist

Caryopteris x clandonensis 'Blue Mist'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 9
Height	2 feet	Spread	2 to 3 feet	Growth Rate	18 to 24 inches
Foliage	3 inches long, narrow and pointed				
Summer Color	Blue Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with dense branching with blue green foliage for spring and summer interest. In late summer; fragrant, wispy, bright blue flowers appear on the foliage tips.				

Bluebeard, Dark Knight

Caryopteris x clandonensi 'Dark Knight'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 9
Height	2 feet	Spread	2 to 3 feet	Growth Rate	18 to 24 inches yearly
Foliage	3 inches long, narrow and pointed				
Summer Color	Blue Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with dense branching with blue green foliage for spring and summer interest. In late summer; fragrant, wispy, purple flowers appear on the foliage tips.				

Broom, Lydia

Genista lydia

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	6
Height	2 feet	Spread	3 feet	Growth Rate	2 to 3 inches yearly
Foliage	Small, needle like				
Summer Color	Gray Green	Autumn Color	Bronze to Brown		
Plant Attributes	Spreading with a mounding habit that provides a broom for the garden without invasive tendencies. In late spring; yellow flowers cover branches. Great for hot dry garden areas.				

Burning Bush, Compact

Euonymus alatus 'Compacta'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	4 to 5 feet	Spread	4 to 5 feet	Growth Rate	5 to 6 inches yearly
Foliage	Small, narrow and pointed				
Summer Color	Medium to Dark Green	Autumn Color	Bright Red		
Plant Attributes	Blocky, dense branching and dark green foliage makes this a great foundation plant to help bring out other plant colors. Then in fall it turns a brilliant fire red. In late summer small pink/red berries appear to attract birds.				

Butterfly Bush Bicolor

Buddleia davidii 'Bicolor'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	6 to 9
Height	6 to 8 feet	Spread	4 to 6 feet	Growth Rate	4 to 6 feet yearly
Foliage	4 to 6 inches long narrow and pointed				
Summer Color	Soft Green with velvety Silver beneath	Autumn Color	Bronze to Brown		
Plant Attributes	Upright arching branches with dusty gray/green foliage that gives way from Mid to Late Summer to fragrant, large, spike shaped clusters of Lavender and Butterscotch Yellow flowers. Attracts hummingbirds and butterflies.				

Butterfly Bush, Black Knight

Buddleia davidii 'Black Knight'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	6 to 9
Height	6 to 8 feet	Spread	4 to 6 feet	Growth Rate	4 to 6 feet yearly
Foliage	4 to 6 inches long narrow and pointed				
Summer Color	Soft Green with velvety Silver beneath	Autumn Color	Bronze to Brown		
Plant Attributes	Upright arching branches with dusty gray/green foliage that gives way from Mid to Late Summer to fragrant, large, spike shaped clusters of Dark Violet flowers. Attracts hummingbirds and butterflies.				

Butterfly Bush, Empire Blue

Buddleia davidii 'Empire Blue'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 6 to 9

Height 6 to 8 feet **Spread** 4 to 6 feet **Growth Rate** 4 to 6 feet yearly

Foliage 4 to 6 inches long narrow and pointed

Summer Color Soft Green with velvety Silver underside **Autumn Color** Bronze to Brown

Plant Attributes Upright arching branches with dusty gray/green foliage that gives way from Mid to Late Summer to fragrant, large, spike shaped clusters of True Blue flowers. Attracts hummingbirds and butterflies.

Butterfly Bush, Harlequin

Buddleia davidii 'Harlequin'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 6 to 9

Height 5 feet **Spread** 4 to 5 feet **Growth Rate** 4 to 5 feet yearly

Foliage 4 to 6 inches long narrow and pointed

Summer Color Yellow maturing to Green with White variegated. Edge **Autumn Color** Bronze to Brown

Plant Attributes Upright arching branches with Variegated foliage gives way from Mid to Late Summer to fragrant, large, spike shaped clusters of Red-Purple flowers. Attracts hummingbirds and butterflies.

Butterfly Bush, Lochinch

Buddleia x 'Lochinch'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 5 to 9

Height 6 to 8 feet **Spread** 4 to 6 feet **Growth Rate** 6 to 8 feet yearly

Foliage 4 to 6 inch long, narrow and pointed

Summer Color Soft Green with Silvery underside **Autumn Color** Bronze to Brown

Plant Attributes Upright arching branches with dusty gray/green foliage that gives way from Mid to Late Summer to fragrant, large, spike shaped clusters of Lavender Violet flowers. Attracts hummingbirds and butterflies.

Butterfly Bush, Royal Red

Buddleia davidii 'Royal Red'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 6 to 9

Height 6 to 8 feet **Spread** 4 to 6 feet **Growth Rate** 4 to 6 feet yearly

Foliage 4 to 6 inches long narrow and pointed

Summer Color Soft Green with velvety Silver underside **Autumn Color** Bronze to Brown

Plant Attributes Upright arching branches with dusty gray/green foliage that gives way from Mid to Late Summer to fragrant, large, spike shaped clusters of Scarlet Purple Red flowers. Attracts hummingbirds and butterflies.

Butterfly Bush, White Ball

Buddleia davidii 'White Ball'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	6
Height	4 to 5 feet	Spread	5 to 6 feet	Growth Rate	4 to 6 feet yearly
Foliage	4 to 6 inches long narrow and pointed				
Summer Color	Soft Green with velvety Silver underside		Autumn Color	Bronze to Brown	
Plant Attributes	A Dwarf with upright arching branches and dusty gray/green foliage that gives way from Mid to Late Summer to fragrant, large, spike shaped clusters of White flowers. Attracts hummingbirds and butterflies.				

Chokeberry, Autumn Magic

Aronia melanocarpa 'Autumn Magic'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 8
Height	3 to 5 feet	Spread	3 to 5 feet	Growth Rate	6 to 8 inches yearly
Foliage	Round oval, 2 to 3 inches long				
Summer Color	Dark Green		Autumn Color	Red Tones	
Plant Attributes	A rounded upright branched shrub that in spring small white cluster of flowers appear, that then develops into jet black 3/8 inch berries that birds like. Later in Fall, foliage turns to red and maroon tones.				

Coralberry, Magic Berry

Symphoricarpos doorenbosii

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	3 to 5 feet	Spread	3 to 5 feet	Growth Rate	3 to 5 feet yearly
Foliage	Rounded 1 to 2 inches long				
Summer Color	Medium Green		Autumn Color	Yellow to Brown	
Plant Attributes	A rounded, rangy plant that is great to promote a natural garden. Attracts birds with its large, pink berries that appear in late summer and persist into winter.				

Cotoneaster, Cranberry

Cotoneaster apicuiatus

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 9
Height	2 to 3 feet	Spread	3 to 6 feet	Growth Rate	18 to 24 inches yearly
Foliage	1/2 inch round				
Summer Color	Shiny Bright Green		Autumn Color	Maroon Red	
Plant Attributes	Mounding with spreading branches, excellent as a groundcover. Can be trained up a trellis for a focal interest. In spring tiny white flowers that lead to brilliant red berries that cover the stems in Late Summer and persist into winter. Birds Love.				

Cotoneaster, Cranberry (Tree)

Cotoneaster apicuiatus

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 9
Height	5 to 6 feet	Spread	3 to 6 feet	Growth Rate	18 to 24 inches yearly
Foliage	1/2 inch round				
Summer Color	Shiny Bright Green		Autumn Color	Maroon Red	
Plant Attributes	Small Weeping Patio or garden tree with tiny white flowers in spring that lead to brilliant red cranberry-like berries that cover the stems.				

Cotoneaster, Variegated Rock

Cotoneaster horizontalis 'Variegatus'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	6 to 7
Height	2 to 3 feet	Spread	5 to 8 feet	Growth Rate	6 to 9 inches yearly
Foliage	Small, oval				
Summer Color	Green edged in White		Autumn Color	Red edged in Pink	
Plant Attributes	Mounding with spreading branches, excellent as a variegated groundcover. In spring tiny white flowers that lead to tiny coral orange berries that cover the stems in Late Summer and persist into winter. Birds Love.				

Cranberry Bush, Dwarf European

Viburnum opulus 'Nanam'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 8
Height	2 to 3 feet	Spread	2 to 4 feet	Growth Rate	2 to 3 inches yearly
Foliage	Lobed, maple shaped 2 to 4 inches				
Summer Color	Glossy Green		Autumn Color	Red	
Plant Attributes	Rounded, compact dense branching and glossy green, lobed foliage supports fragrant, lace cap clusters of white flowers in Mid Spring. Can produce small red berries that attract birds. Then in fall foliage turns red and purple tones.				

Cranberry Bush, Golden Leafed Cranbe

Viburnum opulus 'Aureaum'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	4
Height	4 feet	Spread	5 feet	Growth Rate	5 to 6 inches yearly
Foliage	2 inches wide that are lobed				
Summer Color	Yellow to Lime Green		Autumn Color	Yellow tones	
Plant Attributes	Rounded, upright branching and yellow to lime green, lobed foliage supports fragrant, lace cap clusters of white flowers in Mid Spring. Can produce small red berries that attract birds. Then in fall foliage turns red and purple tones.				

Crape Myrtle, Cherry Dazzle

Lagerstroemia 'Gamad I'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	6 to 9
Height	3 to 5 feet	Spread	3 to 5 feet	Growth Rate	3 to 5 inches yearly
Foliage	Long, pointed oval				
Summer Color	Bronze maturing to Green		Autumn Color	Red Purple	
Plant Attributes	Compact, with upright branching. The show begins with bronze leaves maturing to green followed in summer with large trusses of brilliant red flowers appear again and again. Fall the leaves turn to purple red tones.				

Crape Myrtle, Pecos

Lagerstroemia indica x fauriei hybrid 'Pacos'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	6 to 9
Height	8 feet	Spread	5 feet	Growth Rate	3 feet yearly
Foliage	Long, pointed oval				
Summer Color	Deep Glossy Green		Autumn Color	Red-Orange to Maroon	
Plant Attributes	Upright, spreading branches that from Mid to Late Summer, large trusses of medium pink flowers appear again and again. The flowers are followed by a wonderful Red-Orange Toned Fall Color. Great for dry spots.				

Crape Myrtle, Raspberry Dazzle

Lagerstroemia 'Gamad II'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	6 to 9
Height	4 to 6 feet	Spread	2 to 3 feet	Growth Rate	3 to 5 inches yearly
Foliage	Long, pointed oval				
Summer Color	Dark Green		Autumn Color	Red Purple	
Plant Attributes	Upright, spreading branches that from Mid to Late Summer, large trusses of raspberry red flowers appear again and again. The flowers are followed by a wonderful Red-Purple Toned Fall Color. Great for dry spots.				

Crape Myrtle, Zuni

Lagerstroemia indica x fauriei hybrid 'Zuni'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	6 to 9
Height	8 feet	Spread	5 feet	Growth Rate	3 feet yearly
Foliage	Long, pointed oval				
Summer Color	Deep Glossy Green		Autumn Color	Red-Orange to Maroon	
Plant Attributes	Upright, spreading branches that from Mid to Late Summer, large trusses of dark Lavender flowers appear again and again. The flowers are followed by a wonderful Red-Orange Toned Fall Color. Great for dry spots.				

Currant, Alpine

Ribes alpinum

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	6 to 9
Height	4 to 5 feet	Spread	4 to 5 feet	Growth Rate	12 to 15 inches yearly
Foliage	Rounded and lobed about 1 inch wide				
Summer Color	Glossy Bright Green		Autumn Color	Yellow to Bronze	
Plant Attributes	A dense, rounded foundation plant with glossy bright green foliage that compliments other plants very well. Produces small round cluster that attract birds.				

Deutzia, Pink-A-Boo

Deutzia x 'Monzia'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 8
Height	6 to 8 feet	Spread	6 feet	Growth Rate	4 to 5 inches yearly
Foliage	Small, Narrow pointed				
Summer Color	Green		Autumn Color	Bronze to Brown	
Plant Attributes	Upright with arching branches with dark green foliage gives way to large clusters of Pink flowers in Mid to Late Spring.				

Deutzia, Spring Sensation

Deutzia 'Spring Sensation'

Type	Deciduous	Exposure	Full Sun to Partail Shade	USDA Zones	5 to 9
Height	4 to 5 feet	Spread	4 to 5 feet	Growth Rate	3 to 5 inches yearly
Foliage	Small, Narrow pointed				
Summer Color	Medium Green		Autumn Color	Burgundy	
Plant Attributes	Upright with arching branches with dark green foliage gives way to lots of small White flowers in Mid to Late Spring.				

Dogwood, Bailey Red Twig

Cornus sericea 'baileyi'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	8 to 10 feet	Spread	8 to 10 feet	Growth Rate	1 to 2 feet yearly
Foliage	2 inch, pointed oval				
Summer Color	Green		Autumn Color	Red	
Plant Attributes	Rounded with upright spreading branches. Green foliage turns to red tones in fall. In spring small clusters of white flowers appear to produce tiny blue berries. In fall stems to turn vivid red for winter.				

Dogwood, Cardinal Red Twig

Cornus sericea 'Cardinal'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	8 to 10 feet	Spread	8 feet	Growth Rate	2 to 3 feet yearly
Foliage	2 to 3 inch, pointed oval				
Summer Color	Green	Autumn Color	Red		
Plant Attributes	Rounded with upright spreading branches. Green foliage turns to red tones in fall. In spring small clusters of white flowers appear to produce tiny blue berries. In fall stems to turn vivid coral orange for winter.				

Dogwood, Cornelian Cherry

Cornus mas

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3
Height	15 to 20 feet	Spread	15 to 20 feet	Growth Rate	1 to 2 feet yearly
Foliage	2 to 3 inch, pointed oval				
Summer Color	Green	Autumn Color	Red Tones		
Plant Attributes	a				

Dogwood, Dwarf Red Tipped

Cornus pumila

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	2 to 4 feet	Spread	3 to 4 feet	Growth Rate	3 to 4 inches yearly
Foliage	2 inch, pointed oval				
Summer Color	Green	Autumn Color	Red tones		
Plant Attributes	Compact, rounded with upright spreading branches. Green foliage turns to red tones in fall. In spring small clusters of white flowers appear to produce tiny blue berries.				

Dogwood, Golden Variegated Red Twig

Cornus alba 'Gouchaultii'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	6 to 8 feet	Spread	5 to 8 feet	Growth Rate	1 to 2 feet yearly
Foliage	2 inch, pointed oval				
Summer Color	Green with Golden margins	Autumn Color	Red with Pink margins		
Plant Attributes	Rounded with upright spreading branches. Variegated green and yellow foliage turns to red and pink tones in fall. In spring small clusters of white flowers appear to produce tiny blue berries. In fall stems to turn vivid red for winter interest.				

Dogwood, Ivory Halo Red Twig

Cornus stolonifera 'Bailhalo'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7

Height 5 to 6 feet **Spread** 5 to 6 feet **Growth Rate** 18 inches yearly

Foliage 2 to 3 inch, pointed oval

Summer Color Light Green with Creamy White margins **Autumn Color** Red with Pink margins

Plant Attributes Compact, rounded with upright spreading branches. Variegated green and white foliage turns to red and pink tones in fall. In spring small clusters of white flowers appear to produce tiny blue berries. In fall stems to turn vivid red for winter interest.

Dogwood, Red Gnome

Cornus alba 'Red Gnome'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3

Height 3 feet **Spread** 3 feet **Growth Rate** 3 to 4 inches yearly

Foliage 2 inch, pointed oval

Summer Color Green **Autumn Color** Red Tones

Plant Attributes Dwarf, compact, mound with spreading branches. Green foliage turns to red tones in fall. In spring small clusters of white flowers appear to produce tiny blue berries. In fall stems to turn vivid red for winter interest.

Dogwood, Variegated Red Twig

Cornus alba 'Argenteo-marginata'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7

Height 6 to 10 feet **Spread** 5 to 8 feet **Growth Rate** 2 feet yearly

Foliage 2 inch, pointed oval

Summer Color Green with White margins **Autumn Color** Red with Pink margins

Plant Attributes Rounded with upright spreading branches. Variegated green and white foliage turns to red and pink tones in fall. In spring small clusters of white flowers appear to produce tiny blue berries. In fall stems to turn vivid red for winter interest.

Dogwood, Yellow Twig

Cornus stolonifera 'Flaviramea'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7

Height 6 to 8 feet **Spread** 5 to 6 feet **Growth Rate** 1 foot yearly

Foliage 2 inch, pointed oval

Summer Color Green **Autumn Color** Red

Plant Attributes Rounded with upright spreading branches. Green foliage turns to red tones in fall. In spring small clusters of white flowers appear to produce tiny blue berries. In fall stems to turn vivid yellow for winter interest.

Elderberry, Black Lace

Sambucus nigra 'Eva'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 7
Height	8 to 10 feet	Spread	8 to 10 feet	Growth Rate	4 to 5 inches yearly
Foliage	Finely cut segmented leaves				
Summer Color	Purple	Autumn Color	Red to Bronze		
Plant Attributes	Rounded and open branching that is a great foliage interest with its finely cut, purple leaves. It provides a wonderful texture and in Late Spring lacy clusters of white flower contrast the dark foliage.				

Elderberry, Sutherland

Sambucus racemosa 'Sutherland Gold'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 7
Height	6 to 10 feet	Spread	6 to 10 feet	Growth Rate	4 to 5 inches yearly
Foliage	Finely cut segmented leaves				
Summer Color	Yellow	Autumn Color	Yellow		
Plant Attributes	Rounded and open branching that is a great foliage interest with its finely cut, yellow leaves. It provides a wonderful texture and in Late Spring lacy clusters of white flower contrast the dark foliage.				

Enkianthus, Showy Lantern

Enkianthus campanulatus 'Showy Lantern'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5
Height	6 to 10 feet	Spread	4 to 6 feet	Growth Rate	4 to 5 inches yearly
Foliage	Narrow, pointed oval				
Summer Color	Green	Autumn Color	Red to Orange tones		
Plant Attributes	Upright habit with tiers of horizontal branches and green foliage that gives way in late spring to small bell shaped, red flowers. Then in fall turns brilliant red/orange tones for a magnificent show for a shade garden.				

Filbert, Contorted (Harry Lauders Walk

Corylus avellana 'Contorta'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	4 to 8
Height	6 to 8 feet	Spread	8 to 10 feet	Growth Rate	2 feet yearly
Foliage	2 to 4 inches: Round, Slightly Twisted				
Summer Color	Green	Autumn Color	Bronze		
Plant Attributes	Provides winter interest with upright twisting and curling branches. In late winter or early spring; 2 inch long, catkin-like flowers. Even the leaves are slightly twist for more effect. Use branches in floral arrangements.				

Filbert, Red Majestic

Corylus contorta 'Red Majestic'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4
Height	8 to 12 feet	Spread	8 to 12 feet	Growth Rate	5 to 6 inches yearly
Foliage	Round, wrinkled leaves				
Summer Color	Red, Purple	Autumn Color	Purple Bronze		
Plant Attributes	Mounded with twisted branches and red-purple leaves. Great for year round appeal. In late winter small catkins appear for its flower.				

Forsythia, Gold Cluster

Forsythia x 'Courtaneur'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 9
Height	5 feet	Spread	5 feet	Growth Rate	4 inches yearly
Foliage	Small, ovate				
Summer Color	Dark Green	Autumn Color	Burgundy		
Plant Attributes	A compact, rounded Forsythia that helps it fit into most flower beds. To welcome spring, the plant is covered in large, single, Yellow flowers in Early Spring. A bonus is the burgundy fall color after a summer of green.				

Forsythia, Gold Tide

Forsythia x intermedia 'Courtasol'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 8
Height	2 to 3 feet	Spread	4 to 5 feet	Growth Rate	3 to 4 inches yearly
Foliage	1 1/2 to 3 inch, pointed oval				
Summer Color	Bright Green	Autumn Color	Yellow to Purple Tones		
Plant Attributes	A compact mound with spreading branches that works great for borders or low hedges. In early spring the plant is covered with large, yellow flowers. After a summer of bright green foliage, the foliage changes to yellow and purple tones for a fall show.				

Forsythia, Magical Gold

Forsythia x intermedia 'Kolgold'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 9
Height	4 to 5 feet	Spread	4 to 5 feet	Growth Rate	4 to 6 inches yearly
Foliage	1 1/2 to 3 inch, pointed oval				
Summer Color	Bright Green	Autumn Color	Yellow to Purple Tones		
Plant Attributes	A medium sized Forsythia with upright spreading branches that can fit into most flower beds. To welcome spring, the plant is covered in large, single, Yellow flowers in Early Spring. A bonus is the yellow to purple fall color after a summer of green.				

Forsythia, Sunrise

Forsythia x intermedia 'Sunrise'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 8
Height	4 to 6 feet	Spread	4 to 6 feet	Growth Rate	4 to 5 inches yearly
Foliage	Pointed oval				
Summer Color	Bright Green	Autumn Color	Burgundy to Yellow Tones		
Plant Attributes	A medium sized Forsythia with upright spreading branches that can fit into most flower beds. To welcome spring, the plant is covered in large, single, Yellow flowers in Early Spring. A bonus is the purple and yellow fall color after a summer of green.				

Fothergilla

Fothergilla gardenii

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5
Height	3 to 4 feet	Spread	3 to 4 feet	Growth Rate	3 to 4 inches yearly
Foliage	1 to 2 1/2 inch long leaves				
Summer Color	Dark Green	Autumn Color	Intense Yellow and Oranges		
Plant Attributes	Rounded and compact habit keeps this dynamo in check. First in spring bottlebrush-like, white flowers appear with a honey fragrance. Then in fall and explosion of fall colors lights up the garden.				

Fothergilla, Mount Airy

Fothergilla major 'Mount Airy'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5
Height	5 to 6 feet	Spread	4 to 5 feet	Growth Rate	4 to 5 inches yearly
Foliage	1 to 2 1/2 inch long leaves				
Summer Color	Blue-Green	Autumn Color	Yellow, Orange, Red		
Plant Attributes	Rounded and compact habit keeps this dynamo in check. First in spring bottlebrush-like, white flowers appear with a honey fragrance. Then in fall and explosion of fall colors lights up the garden.				

Hydrangea, Black Stemmed

Hydrangea macrophylla 'Nigra'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 7
Height	4 to 6 feet	Spread	3 to 5 feet	Growth Rate	4 to 6 feet yearly
Foliage	Pointed oval, 3 to 4 inches				
Summer Color	Dark Green with black stems	Autumn Color	Yellow		
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, round clusters of Blue or Pink star-like flowers in Mid to Late Summer. Black stems provide great contrast in summer with foliage and interest in winter.				

Hydrangea, Blue Wave

Hydrangea macrophylla 'Blue Wave'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 9
Height	4 to 6 feet	Spread	4 to 6 feet	Growth Rate	3 to 4 feet yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Glossy Green	Autumn Color	Bronze		
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, lace cap clusters of Blue or Lavender Pink star-like flowers in Mid to Late Summer.				

Hydrangea, Endless Summer

Hydrangea macrophylla 'Bailmer'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	4 to 9
Height	5 feet	Spread	5 feet	Growth Rate	3 to 4 feet yearly
Foliage	Pointed oval, 3 to 4 inches				
Summer Color	Bright Green	Autumn Color	Yellow		
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, round clusters of Blue or Lavender Pink star-like flowers in Mid to Late Summer. Flowers on old and new wood, so late hard frosts are not a problem.				

Hydrangea, Endless Summer Blushing B

Hydrangea macrophylla 'Blushing Bride'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	4 to 9
Height	3 to 6 feet	Spread	3 to 6 feet	Growth Rate	3 to 4 feet yearly
Foliage	Pointed oval, 3 to 4 inches				
Summer Color	Bright Green	Autumn Color	Yellow		
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, round clusters of Pink to White star-like flowers in Mid to Late Summer. Flowers on old and new wood, so late hard frosts are not a problem.				

Hydrangea, Endless Summer Twist and

Hydrangea macrophylla 'PIIHM-I'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	4 to 9
Height	3 to 6 feet	Spread	3 to 6 feet	Growth Rate	3 to 4 feet yearly
Foliage	Pointed oval, 3 to 4 inches				
Summer Color	Bright Green	Autumn Color	Yellow		
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, lace cap clusters of Blue to Lavender Pink star-like flowers in Mid to Late Summer. Flowers on old and new wood, so late hard frosts are not a problem.				

Hydrangea, Glowing Embers

Hydrangea macrophylla 'Glowing Embers'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 9
Height	4 to 6 feet	Spread	4 to 6 feet	Growth Rate	3 to 4 feet yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Glossy Green		Autumn Color	Bronze	
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, round clusters of Dark Red Pink star-like flowers in Mid to Late Summer. Allow flowers to dry for a longer show.				

Hydrangea, Little Lamb

Hydrangea paniculata 'Little Lamb'

Type	Deciduous	Exposure	Full Sun to Partail Shade	USDA Zones	3 to 8
Height	6 to 8 feet	Spread	6 to 8 feet	Growth Rate	3 to 5 inches yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Medium Green		Autumn Color	Yellow to Brown	
Plant Attributes	Compact, Dense and arching habit gives way to White cone shaped flower clusters in July. Allow flowers to age to a rusty pink color through September. Yellow fall color follows.				

Hydrangea, Madame E. Mouillere

Hydrangea macrophylla 'Mme. E. Mouillere'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 9
Height	6 feet	Spread	6 feet	Growth Rate	4 to 5 feet yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Glossy Green		Autumn Color	Bronze	
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, round clusters of White star-like flowers in Mid to Late Summer. Allow flowers to dry for a longer show.				

Hydrangea, Mariesii Variegated

Hydrangea macrophylla 'Mariesii Variegata'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 9
Height	4 to 6 feet	Spread	4 to 6 feet	Growth Rate	3 to 4 feet yearly
Foliage	Pointed oval, 3 to 4 inches				
Summer Color	Green with white margins		Autumn Color	Yellow	
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, lace cap clusters of White with either pink or blue centers star-like flowers in Mid to Late Summer.				

Hydrangea, Nikko Blue

Hydrangea macrophylla 'Nikko Blue'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 9
Height	4 to 5 feet	Spread	4 to 5 feet	Growth Rate	3 to 4 feet yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Glossy Green	Autumn Color	Bronze		
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, round clusters of Blue to Lavender Pink star-like flowers in Mid to Late Summer. Allow flowers to dry for a longer show.				

Hydrangea, Pee Gee

Hydrangea paniculata 'Grandiflora'

Type	Deciduous	Exposure	Full Sun to Partail Shade	USDA Zones	1 to 10
Height	10 to 15 feet	Spread	10 to 15 feet	Growth Rate	10 to 12 inches yearly
Foliage	Pointed oval up to 5 inches				
Summer Color	Glossy Green	Autumn Color	Yellow to Bronze		
Plant Attributes	Large, upright and arching habit gives way to White cone shaped flower clusters in July. Allow flowers to age to a rusty pink color through September. Yellow fall color follows.				

Hydrangea, Pink Elf

Hydrangea macrophylla 'Pink Elf'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 9
Height	18 inches	Spread	18 inches	Growth Rate	10 to 12 inches yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Glossy Green	Autumn Color	Bronze		
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, round clusters of Pink star-like flowers in Mid to Late Summer. Allow flowers to dry for a longer show.				

Hydrangea, Pink Parfait

Hydrangea macrophylla 'Anderson 1'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 9
Height	4 to 5 feet	Spread	4 to 5 feet	Growth Rate	3 to 4 feet yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Dark Green	Autumn Color	Bronze		
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, round clusters of Pink star-like flowers in Mid to Late Summer. Allow flowers to dry for a longer show.				

Hydrangea, Purple Gem

Hydrangea macrophylla 'Purple Gem'

Type	Deciduous	Exposure	Afternoon Shade	USDA Zones	5 to 9
Height	4 to 6 feet	Spread	4 to 6 feet	Growth Rate	3 to 4 feet yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Dark Green	Autumn Color	Bronze		
Plant Attributes	Rounded, dense spreading branches and large green leaves support large, round clusters of Purple to Pink star-like flowers in Mid to Late Summer. Allow flowers to dry for a longer show.				

Hydrangea, Snow Queen

Hydrangea quercifolia 'Snow Queen'

Type	Deciduous	Exposure	Full Sun to Partail Shade	USDA Zones	5 to 9
Height	4 to 6 feet	Spread	3 to 5 feet	Growth Rate	10 to 12 inches yearly
Foliage	Large, shaped like a Red Oak leaf				
Summer Color	Dark Green	Autumn Color	Burgundy		
Plant Attributes	Rounded, upright branching that is an intrigue all around, first oak-leaf shaped foliage with cinnamon brown exfoliating bark. Then in July white cone shaped flowers emerge. In fall green foliage turns a reddish purple color to finish the year.				

Hydrangea, Ticked Pink

Hydrangea paniculata 'HYPMAD II'

Type	Deciduous	Exposure	Full Sun to Partail Shade	USDA Zones	4 to 8
Height	4 to 5 feet	Spread	5 to 6 feet	Growth Rate	4 to 5 inches yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Dark Green	Autumn Color	Yellow to Bronze		
Plant Attributes	Compact dwarf habit gives way to White cone shaped flower clusters in July. Allow flowers to age to a rusty pink color through September. Yellow fall color follows.				

Hydrangea, White Diamonds

Hydrangea paniculata 'Earth'

Type	Deciduous	Exposure	Full Sun to Partail Shade	USDA Zones	3
Height	4 feet	Spread	4 feet	Growth Rate	3 to 4 inches yearly
Foliage	Pointed oval 3 to 4 inches				
Summer Color	Dark Green	Autumn Color	Yellow to Brown		
Plant Attributes	Compact dwarf habit gives way to White cone shaped flower clusters in July. Allow flowers to age to a rusty pink color through September. Yellow fall color follows.				

Kerria, Double Flowered

Kerria japonica 'Pleniflora'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 9
Height	8 to 10 feet	Spread	8 to 10 feet	Growth Rate	6 to 8 inches yearly
Foliage	Pointed oval, about 3 inches long				
Summer Color	Bright Green	Autumn Color	Yellow to Brown		
Plant Attributes	Upright, arching branches with green leaves and stems support lots of double, ball shaped golden yellow flowers in Mid to Late Spring.				

Lilac, Charles Joly

Syringa vulgaris 'Charles Joly'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	10 to 12 feet	Spread	8 to 10 feet	Growth Rate	6 to 8 inches yearly
Foliage	5 inch round oval				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with open branching and dark green foliage that supports clusters of fragrant, double, Red-purple flowers in Mid Spring.				

Lilac, Charles Joly Tree

Syringa vulgaris 'Charles Joly'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	10 to 12 feet	Spread	8 to 10 feet	Growth Rate	6 to 8 inches yearly
Foliage	5 inch round oval				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded, small tree with open branching and dark green foliage that supports clusters of fragrant, double, Red-purple flowers in Mid Spring.				

Lilac, Congo

Syringa vulgaris 'Congo'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	10 to 12 feet	Spread	8 to 10 feet	Growth Rate	6 to 8 inches yearly
Foliage	5 inch rounded oval				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with open branching and dark green foliage that supports clusters of fragrant, single, Red-purple flowers in Mid Spring.				

Lilac, Donald Wyman

Syringa x prestoniae 'Donald Wyman'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	8 to 10 feet	Spread	4 to 6 feet	Growth Rate	6 to 8 inches yearly
Foliage	5 inch pointed oval				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with open branching and dark green foliage that supports clusters of fragrant, single, Pink flowers in Late Spring.				

Lilac, Madame Lemoine

Syringa vulgaris 'Mme. Lemoine'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	8 to 10 feet	Spread	10 feet	Growth Rate	6 to 8 inches yearly
Foliage	5 inch, round oval				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with open branching and dark green foliage that supports clusters of fragrant, double, White flowers in Mid Spring.				

Lilac, Michael Buchner

Syringa vulgaris 'Michael Buchner'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	10 to 15 feet	Spread	8 to 10 feet	Growth Rate	6 to 8 inches yearly
Foliage	3 to 5 inch round oval				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with open branching and dark green foliage that supports clusters of fragrant, single, Lavender flowers in Mid Spring.				

Lilac, Micheal Buchner Tree

Syringa vulgaris 'Michael Buchner'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	10 to 15 feet	Spread	8 to 10 feet	Growth Rate	6 to 8 inches yearly
Foliage	3 to 5 inch round oval				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded, small tree with open branching and dark green foliage that supports clusters of fragrant, single, Lavender flowers in Mid Spring.				

Lilac, Miss Kim Korean

Syringa patula 'Miss Kim'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	3 feet	Spread	3 to 4 feet	Growth Rate	3 to 4 inches yearly
Foliage	Small, round				
Summer Color	Dark Green	Autumn Color	Reddish Purple		
Plant Attributes	Compact, dense upright branching and dark green foliage supports clusters of fragrant, purple buds that open to Icy Blue flowers in Late Spring. Also in fall leaves turn to a reddish/purple color.				

Lilac, Sugar Plum Fairy

Syringa x 'Bailsugar'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	4 to 5 feet	Spread	4 to 5 feet	Growth Rate	3 to 5 inches yearly
Foliage	Small, round				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Compact, dense upright branching and dark green foliage supports clusters of fragrant, purple buds that open to rosy lilac flowers in Spring. .				

Lilac, Tinkerbelle

Syringa x 'Bailbelle'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	5 to 6 feet	Spread	4 to 5 feet	Growth Rate	3 to 5 inches yearly
Foliage	Small, round				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Compact, dense upright branching and dark green foliage supports clusters of fragrant, purple buds that open to Icy Blue flowers in Late Spring. Also in fall leaves turn to a reddish/purple color.				

Lilac, Wonderblue

Syringa vulgaris 'Wonderblue'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	8 to 10 feet	Spread	8 to 12 feet	Growth Rate	6 to 8 inches yearly
Foliage	5 inch round oval				
Summer Color	Dark Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with open branching and dark green foliage that supports clusters of fragrant, single, sky blue flowers in Mid Spring.				

Magnolia, Nigra (Purple Lily)

Magnolia lilifolra 'Nigra'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 7
Height	8 to 10 feet	Spread	4 to 8 feet	Growth Rate	6 to 8 inches yearly
Foliage	2 to 4 inches pointed oval				
Summer Color	Dark Green	Autumn Color	Yellow to Bronze		
Plant Attributes	Upright, open branching that supports a show of large, fragrant, lily shaped, Purple-Red and creamy pink inside flowers in Early Spring.				

Magnolia, Randy

Magnolia hybrid 'Randy'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 7
Height	10 to 15 feet	Spread	10 to 12 feet	Growth Rate	6 to 8 inches yearly
Foliage	2 to 4 inches pointed oval				
Summer Color	Dark Green	Autumn Color	Yellow to Bronze		
Plant Attributes	Upright, open branching that supports a show of large, fragrant, star shaped, deep Purple-red with a Very Soft Pink inside flowers in Late Spring				

Magnolia, Royal Star

Magnolia stellata 'Royal Star'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 7
Height	8 feet	Spread	10 to 12 feet	Growth Rate	6 to 8 inches yearly
Foliage	2 to 4 inches pointed oval				
Summer Color	Dark Green	Autumn Color	Yellow to Bronze		
Plant Attributes	Upright, open branching that supports a show of large, fragrant, lily shaped, White flowers in Early Spring.				

Magnolia, Saucer

Magnolia x soulangiana

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 9
Height	20 to 25 feet	Spread	20 to 25 feet	Growth Rate	6 to 8 inches yearly
Foliage	2 to 4 inches pointed oval				
Summer Color	Bright Green	Autumn Color	Yellow to Brown		
Plant Attributes	Upright, open branching that supports a show of large, fragrant, saucer shaped, Pinkish White flowers in Early Spring.				

Magnolia, Yellowbird

Magnolia x 'Yellow Bird'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 7
Height	40 feet	Spread	25 feet	Growth Rate	6 to 8 inches yearly
Foliage	Leathery, 4 to 8 inches pointed oval				
Summer Color	Dark Green	Autumn Color	Yellow to Bronze		
Plant Attributes	Upright, open branching that supports a show of large, fragrant, tulip shaped, Yellow flowers in Early Spring.				

Maple, Amur Flame (Ginnala)

Acer ginnala 'Flame'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	15 to 20 feet	Spread	20 feet	Growth Rate	10 to 12 inches yearly
Foliage	3 inches long, deeply lobed, maple - leaf				
Summer Color	Glossy Green	Autumn Color	Fiery Red		
Plant Attributes	Upright, open branching with green foliage through the summer changes in Fall to brilliant Red and Orange tones that catches the garden on fire. Also has some tiny, inch long samara (helicopters) that are bright red in Early Fall.				

Maple, Emerald Elf

Acer ginnala 'Emerald Elf'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	5 to 6 feet	Spread	5 to 6 feet	Growth Rate	3 to 5 inches yearly
Foliage	3 inches long, deeply lobed, maple-leaf				
Summer Color	Glossy Green	Autumn Color	Vivid Burgundy		
Plant Attributes	Upright, open branching with Green foliage through the summer changes in Fall to Vivid Burgundy that catches the garden on fire. Also has some tiny, inch long samara (helicopters) that are red in Early Fall.				

Mockorange, Blizzard

Philadelphus lewisii 'Blizzard'

Type	Deciduous	Exposure	Full Sun to Partail Shade	USDA Zones	3 to 7
Height	4 to 5 feet	Spread	3 feet	Growth Rate	3 to 5 inches yearly
Foliage	2 to 3 inch, pointed oval				
Summer Color	Green	Autumn Color	Yellow to Brown		
Plant Attributes	Rounded with upright habit and green leaves in Late Spring get covered in 1 inch, double, fragrant white flowers. Long Bloom Period, up to 4 weeks! Good as a foundation or hedge plant.				

Mockorange, Dwarf Snowflake

Philadelphus x virginialis 'Dwarf Snowflake'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 7
Height 3 to 4 feet **Spread** 3 to 4 feet **Growth Rate** 3 to 5 inches yearly
Foliage 2 to 3 inches, pointed oval
Summer Color Medium Green **Autumn Color** Bronze to Brown
Plant Attributes Rounded with upright habit and green leaves in Late Spring get covered in 2 inch wide, semi-double, fragrant white flowers. Good as a foundation or hedge plant.

Mockorange, Minnesota Snowflake

Philadelphus x virginialis 'Minnesota Snowflake'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 8
Height 6 to 8 feet **Spread** 5 to 6 feet **Growth Rate** 6 to 10 inches yearly
Foliage 2 to 3 inches, pointed oval
Summer Color Medium Green **Autumn Color** Bronze to Brown
Plant Attributes Rounded with upright habit and green leaves in Late Spring get covered in 1 to 2 inch, double, fragrant white flowers. Good as a foundation or hedge plant.

Ninebark, Diabolo

Physocarpus opulifolius 'Monlo'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 1 to 7
Height 8 to 10 feet **Spread** 8 to 10 feet **Growth Rate** 2 to 2 1/2 feet yearly
Foliage 1 1/2 to 3 inches rounded with 3 lobes
Summer Color Purple to Dark Green **Autumn Color** Reddish Purple
Plant Attributes Rounded with upright habit and reddish purple leaves highlight clusters of tiny white flowers in Spring. Has exfoliating brown and white bark for winter interest.

Ninebark, Golden

Physocarpus opulifolius 'Luteus'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 2 to 7
Height 4 to 5 feet **Spread** 4 to 5 feet **Growth Rate** 2 to 2 1/2 feet yearly
Foliage 1 1/2 to 3 inch, rounded and have 3 lobes
Summer Color Light Golden to Green **Autumn Color** Reddish Brown
Plant Attributes Rounded with upright habit and light golden to green leaves highlight clusters of tiny white flowers in Spring. Has exfoliating brown and white bark for winter interest. Smaller version of Diabolo.

Ninebark, Summer Wine

Physocarpus opulifolius 'Seward'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7
Height 5 to 6 feet **Spread** 5 to 6 feet **Growth Rate** 3 to 5 inches yearly
Foliage _____
Summer Color Red Purple **Autumn Color** Purple to Red
Plant Attributes Rounded with upright habit and light golden to green leaves highlight clusters of tiny white flowers in Spring. Has exfoliating brown and white bark for winter interest.

Parrotia, Persian

Parrotia persica

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 7
Height 15 to 20 feet **Spread** 15 to 20 feet **Growth Rate** 6 to 10 inches yearly
Foliage Oval, 3 to 4 inches long
Summer Color Glossy, Dark Green **Autumn Color** Golden Yellow to Orange
Plant Attributes Great specimen to small tree. Upright, twisting branches and exfoliating bark support small red stamen flowers in Late winter to Early Spring. Then glossy green foliage turn to yellows and oranges in the fall. New growth has a red tint as well.

Potentilla, Frosty

Potentilla fruticosa 'Monsidh'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7
Height 1 to 2 feet **Spread** 2 to 3 feet **Growth Rate** 2 to 3 inches yearly
Foliage Small, lobed
Summer Color Dark Green **Autumn Color** Yellow to Brown tones
Plant Attributes Rounded and compact. A tough and adaptive flowering shrub that blooms all summer long with lots of single, 1 inch wide, white flowers.

Potentilla, Gold Finger

Potentilla fruticosa 'Gold Finger'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 2 to 7
Height 3 feet **Spread** 3 feet **Growth Rate** 3 to 6 inches yearly
Foliage Narrow, pointed about 1 inch long
Summer Color Dark Green **Autumn Color** Yellowish to Bronze
Plant Attributes A compact mound that is a tough and adaptive flowering shrub that blooms all summer long with lots of single, 1 inch wide, Bright Yellow flowers.

Potentilla, Gold Finger Tree

Potentilla fruticosa 'Gold Finger'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	2 to 7
Height	5 feet	Spread	3 feet	Growth Rate	3 to 6 inches yearly
Foliage	Narrow, pointed about 1 inch long				
Summer Color	Dark Green	Autumn Color	Yellowish to Bronze		
Plant Attributes	A small tree for when you need something for height but also all summer long color of 1 inch wide, single, bright yellow flowers.				

Potentilla, Mango Tango

Potentilla fruticosa 'Uman'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	2 to 7
Height	2 feet	Spread	2 to 3 feet	Growth Rate	3 to 4 inches yearly
Foliage	Narrow, pointed about 1 inch long				
Summer Color	Dark Green	Autumn Color	Yellowish to Bronze		
Plant Attributes	A compact mounding habit that provides a great backdrop to butter cup like flowers of yellow with orange centers.				

Potentilla, Primrose Beauty

Potentilla fruticosa 'Primrose Beauty'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	2 to 7
Height	2 to 3 feet	Spread	3 to 4 feet	Growth Rate	3 to 6 inches yearly
Foliage	Narrow, pointed about 1 inch long				
Summer Color	Silver - Grey	Autumn Color	Silver - Grey		
Plant Attributes	A compact mound that is a tough and adaptive flowering shrub that blooms all summer long with lots of single, 1 inch wide, Cream Yellow flowers.				

Potentilla, Red Sunset

Potentilla fruticosa 'Red Sunset'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	2 to 7
Height	2 to 3 feet	Spread	3 to 4 feet	Growth Rate	3 to 4 inches yearly
Foliage	Narrow, pointed about 1 inch long				
Summer Color	Dark Green	Autumn Color	Yellowish to Bronze		
Plant Attributes	A compact mound that is a tough and adaptive flowering shrub that blooms all summer long with lots of single, 1 inch wide, Red Orange flowers.				

Privet, Cheyenne

Ligustrum vulgare 'Cheyenne'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 7
Height	12 to 15 feet	Spread	10 feet	Growth Rate	4 to 5 feet yearly
Foliage	Oval, 2 to 3 inches long				
Summer Color	Green	Autumn Color	Yellowish to Bronze		
Plant Attributes	Rounded with upright branching habit that is great for providing screen during the growing season. In late spring or early summer; produces fragrant clusters of White flowers. If not dead headed flowers will develop into small black berries.				

Privet, Low Dense

Ligustrum vulgare 'Low Dense'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 7
Height	4 feet	Spread	4 feet	Growth Rate	1 foot yearly
Foliage	Oval 2 to 3 inches long				
Summer Color	Green	Autumn Color	Yellowish to Bronze		
Plant Attributes	A rounded, compact habit for a hedge or screen during the growing season. In late spring or early summer; produces fragrant clusters of White flowers. If not dead headed flowers will develop into small black berries.				

Pussywillow, Black

Salix melanostachys

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	2 to 7
Height	6 to 10 feet	Spread	8 to 10 feet	Growth Rate	6 to 8 inches yearly
Foliage	Oval 2 to 4 inches long				
Summer Color	Bright Green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with upright branching; that in early spring produces soft, silky, Purple Black catkins that appear before the foliage. The bright green leaves go all growing season to turn yellow for fall. Stems are purple to black for an added winter interest.				

Quince, Super Red Flowering

Chaenomeles speciosa 'Super Red'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	
Height	6 to 10 feet	Spread	4 to 6 feet	Growth Rate	6 to 10 inches
Foliage	Pointed Oval 2 to 2 1/2 inches long				
Summer Color	New Leaves tinged red turning green	Autumn Color	Orange to yellow		
Plant Attributes	Mounding with open branching that is a tough plant for tough areas of the yards. Effective barrier plant for wildlife cover due to thorns. In Spring single, red flowers appear to make the thorns worth while.				

Rose of Sharon, Aphrodite

Hibiscus syriacus 'Aphrodite'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 8
Height	8 to 12 feet	Spread	6 feet	Growth Rate	8 to 10 inches yearly
Foliage	3 to 4 inches long, lobed and coarse toothed				
Summer Color	Bright Green	Autumn Color	Yellow		
Plant Attributes	Upright dense branching with bright green leaves give a back drop to 3 inch wide, single, Dark Pink with a Red Eyed flowers that appear and reappear from July to Late September. Yellow fall color ends the long show.				

Rose of Sharon, Blue Satin

Hibiscus syriacus 'Marina'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 8
Height	8 to 12 feet	Spread	4 to 6 feet	Growth Rate	8 to 10 inches yearly
Foliage	3 to 4 inches long, lobed and coarse toothed				
Summer Color	Medium Green	Autumn Color	Yellow		
Plant Attributes	Upright dense branching with bright green leaves give a back drop to 3 inch wide, single, Lavender Blue with a Red Eyed flowers that appear and reappear from July to Late September. Yellow fall color ends the long show.				

Rose of Sharon, Lavender Chiffon

Hibiscus syriacus 'Lavender Chiffon'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 8
Height	8 to 12 feet	Spread	6 feet	Growth Rate	8 to 10 inches yearly
Foliage	3 to 4 inches long, lobed and coarse				
Summer Color	Medium Green	Autumn Color	Yellow		
Plant Attributes	Upright dense branching with bright green leaves give a back drop to 3 inch wide, single, Lavender with a Red Eyed flowers that appear and reappear from July to Late September. Yellow fall color ends the long show.				

Rose of Sharon, Lucy Athens

Hibiscus syriacus 'Lucy Athens'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 8
Height	8 to 12 feet	Spread	6 feet	Growth Rate	8 to 10 inches yearly
Foliage	3 to 4 inches long, lobed and coarse				
Summer Color	Bright Green	Autumn Color	Yellow		
Plant Attributes	Upright dense branching with bright green leaves give a back drop to 3 inch wide, double, Lavender Pink flowers that appear and reappear from July to Late September. Yellow fall color ends the long show.				

Rose of Sharon, Minerva

Hibiscus syriacus 'Minerva'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 8
Height	8 to 12 feet	Spread	6 feet	Growth Rate	8 to 10 inches yearly
Foliage	3 to 4 inches long, lobed and coarse toothed				
Summer Color	Bright Green	Autumn Color	Yellow		
Plant Attributes	Upright dense branching with bright green leaves give a back drop to 3 inch wide, single, Lavender Pink with a Red Eyed flowers that appear and reappear from July to Late September. Yellow fall color ends the long show.				

Rose of Sharon, Pink Giant

Hibiscus syriacus 'Pink Giant'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 8
Height	8 to 12 feet	Spread	6 feet	Growth Rate	8 to 10 inches yearly
Foliage	3 to 4 inches long, lobed and coarse toothed				
Summer Color	Bright Green	Autumn Color	Yellow		
Plant Attributes	Upright dense branching with bright green leaves give a back drop to 3 inch wide, single, Pink with a Red Eyed flowers that appear and reappear from July to Late September. Yellow fall color ends the long show.				

Rose of Sharon, Red Heart

Hibiscus syriacus 'Red Heart'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 8
Height	8 to 12 feet	Spread	6 feet	Growth Rate	8 to 10 inches yearly
Foliage	3 to 4 inches long, lobed and coarse toothed				
Summer Color	Bright Green	Autumn Color	Yellow		
Plant Attributes	Upright dense branching with bright green leaves give a back drop to 3 inch wide, single, White with a Red Eyed flowers that appear and reappear from July to Late September. Yellow fall color ends the long show.				

Serviceberry, Allegheny

Amelanchier laevis

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4
Height	25 feet	Spread	15 feet	Growth Rate	6 to 8 inches yearly
Foliage	Small Pointed Oval				
Summer Color	Green	Autumn Color	Red, Orange and Yellow tones		
Plant Attributes	With an upright irregular habit that provides a show for all seasons, first in Spring fragrant white flower clusters emerge. Then small, sweet, pink edible berries appear for the birds. For fall, the leaves turn to tones of Reds, Oranges and Yellows.				

Serviceberry, Autumn Brilliance Shadbl *Amelanchier x grandiflora 'Autumn Brilliance'*

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 5 to 9

Height 20 to 25 feet **Spread** 10 to 15 feet **Growth Rate** 18 to 24 inches yearly

Foliage Pointed oval, about 3 inches long

Summer Color New leaves Purplish turning Green **Autumn Color** Bright Red

Plant Attributes With an upright irregular habit that provides a show for all seasons, first in Spring fragrant white flower clusters emerge. Then small, sweet, pink edible berries appear for the birds. For fall, the leaves turn to tones of Reds, Oranges and Yellows.

Smoke Bush, Golden Spirit *Cotinus coggygria 'Ancot'*

Type Deciduous **Exposure** Full Sun **USDA Zones** 4 to 8

Height 6 to 7 feet **Spread** 6 to 7 feet **Growth Rate** 6 to 10 inches yearly

Foliage 2 to 3 inch rounded

Summer Color Golden Yellow **Autumn Color** Orange to Red Tones

Plant Attributes Loose and open habit with upright branches that in Late Spring or Early Summer, large puff-like flowers appear on the tips of the branches. Yellow leaves turn to Orange and Red Tones in fall for a spectacular show.

Smoke Bush, Pop's Pink Champagne *Cotinus coggygria 'Pop's Pink Champagne'*

Type Deciduous **Exposure** Full Sun **USDA Zones** 5 to 8

Height 8 to 12 feet **Spread** 8 to 12 feet **Growth Rate** 18 to 24 inches yearly

Foliage 2 to 3 inch, rounded

Summer Color Mauve **Autumn Color** Reddish Purple

Plant Attributes Loose and open habit with upright branches that in Late Spring or Early Summer, large puff-like flowers appear on the tips of the branches. In fall enjoy the brilliant Reddish Purple fall color.

Smoke Bush, Royal Purple *Cotinus coggygria 'Royal Purple'*

Type Deciduous **Exposure** Full Sun **USDA Zones** 5 to 8

Height 10 to 15 feet **Spread** 10 to 12 feet **Growth Rate** 18 to 24 inches yearly

Foliage 2 to 3 inches round

Summer Color Velvety Deep Purple **Autumn Color** Dark Purple to Bronze

Plant Attributes Loose and open habit with upright branches that in Late Spring or Early Summer, large puff-like flowers appear on the tips of the branches. Velvety Deep Purple leaves turn to Orange and Red Tones in fall for a spectacular show.

Snowball, Old Fashioned

Viburnum opulus 'Roseum' or 'Sterile'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 8
Height 8 to 12 feet **Spread** 8 to 12 feet **Growth Rate** 6 to 10 inches yearly
Foliage Lobed, maple shaped 2 to 4 inches
Summer Color Bright Green **Autumn Color** Red tones
Plant Attributes Upright, rounded, open branching and bright green, lobed foliage supports fragrant, snowball like clusters of white flowers in Mid Spring. Then in fall foliage turns red and purple tones.

Spiraea, Anthony Waterer

Spiraea x bumalda 'Anthony Waterer'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7
Height 2 to 3 feet **Spread** 4 to 5 feet **Growth Rate** 3 to 4 inches yearly
Foliage Pointed oval, about 3 inches long
Summer Color New leaves Red turning Green **Autumn Color** Red Tones
Plant Attributes Rounded with upright branches that is a durable plant and easy to grow. Dark green foliage supports large clusters of Carmine Pink flowers from June to Frost. Then you get a red fall color to end the long show.

Spiraea, Crispa

Spiraea x bumalda 'Crispa'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7
Height 2 to 3 feet **Spread** 3 to 4 feet **Growth Rate** 3 to 4 inches yearly
Foliage Pointed oval, serrated about 3 inches long
Summer Color New leaves Red turning Green **Autumn Color** Bronze to Brown
Plant Attributes Rounded with upright branches that is a durable plant and easy to grow. Dark green, serrated, foliage supports large clusters of Pink flowers from June to Frost.

Spiraea, Firegold

Spiraea x vanhouttei 'Levgold'

Type Deciduous **Exposure** Full Sun to Partail Shade **USDA Zones** 4 to 8
Height 4 to 6 feet **Spread** 5 to 7 feet **Growth Rate** 3 to 5 inches yearly
Foliage Pointed oval 1 to 2 inches long
Summer Color Yellow Green **Autumn Color** Yellow Orange
Plant Attributes Rounded with upright, arching branches that is a durable and easy to grow. Yellow Green foliage becomes covered in hundreds of small white flowers in Late Spring. Great for a foundation planting, hedge or a compliment for other plants.

Spiraea, Golden Elf

Spiraea japonica 'Golden Elf'

Type Deciduous **Exposure** Full Sun to Partail Shade **USDA Zones** 4 to 8

Height 6 to 8 inches **Spread** 18 to 24 inches **Growth Rate** 2 to 4 inches yearly

Foliage Pointed oval, about 3 inches long

Summer Color Golden Yellow **Autumn Color** Golden Yellow

Plant Attributes Mounded with compact branches that is a durable and easy to grow. Yellow green foliage supports large clusters of Pink flowers from June to Frost. In fall the foliage turns Golden Yellow to end a long show.

Spiraea, Goldflame

Spiraea x bumalda 'Goldflame'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7

Height 2 to 3 feet **Spread** 3 to 4 feet **Growth Rate** 3 to 4 inches yearly

Foliage Pointed oval, about 3 inches long

Summer Color New leaves Red turning Golden **Autumn Color** Red Tones

Plant Attributes Rounded with upright branches that is a durable plant and easy to grow. Golden yellow to bronze green foliage supports large clusters of Carmine Pink flowers from June to Frost. Then you get a red fall color to end the long show.

Spiraea, Little Princess

Spiraea x japonica 'Little Princess'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7

Height 3 feet **Spread** 6 feet **Growth Rate** 3 to 4 inches yearly

Foliage Pointed oval, about 3 inches long

Summer Color Medium Green **Autumn Color** Bronze to Brown

Plant Attributes Mounded with compact branches that is a durable and easy to grow. Dark green foliage supports large clusters of Pink flowers from June to Frost.

Spiraea, Magic Carpet

Spiraea x japonica 'Magic Carpet'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7

Height 18 inches **Spread** 3 feet **Growth Rate** 3 to 4 inches yearly

Foliage Pointed oval, about 3 inches long

Summer Color New leaves Red turning Bronze then Yellow **Autumn Color** Orange Red

Plant Attributes Mounded with compact branches that is a durable and easy to grow. Yellow green foliage supports large clusters of Pink flowers from June to Frost. In fall the foliage turns orange red to end a long show.

Spiraea, Renaissance

Spiraea x vanhouttei 'Renaissance'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	5 feet	Spread	6 feet	Growth Rate	4 to 8 inches yearly
Foliage	Pointed oval about 1 inch long				
Summer Color	Dark Green	Autumn Color	Orange-Red		
Plant Attributes	Rounded with upright, arching branches that is a durable and easy to grow. Dark blue-green foliage becomes covered in hundreds of small white flowers in Late Spring. Great for a foundation planting, hedge or a compliment for other plants.				

Spiraea, Shirobana

Spiraea x japonica 'Shirobana'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	2 to 3 feet	Spread	2 to 3 feet	Growth Rate	3 to 4 inches yearly
Foliage	Pointed oval, about 3 inches long				
Summer Color	Bright green	Autumn Color	Bronze to Brown		
Plant Attributes	Rounded with upright branches that is a durable and easy to grow. Dark green foliage supports large pink or white clusters of flowers from June to Frost.				

Spiraea, Snowmound

Spiraea nipponica 'Snowmound'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 7
Height	3 feet	Spread	4 to 5 feet	Growth Rate	3 to 4 inches yearly
Foliage	Pointed oval, about 3 inches long				
Summer Color	Dark Blue Green	Autumn Color	Bronze to Brown		
Plant Attributes	Mounded with dense spreading branches. Dark blue-green foliage becomes covered in hundreds of small white flowers in Late Spring. Great for a foundation planting, hedge or a compliment for other plants.				

Spiraea, Sundrop

Spiraea x 'Bailcarol'

Type	Deciduous	Exposure	Full Sun to Partail Shade	USDA Zones	4 to 8
Height	12 to 15 inches	Spread	2 to 3 feet	Growth Rate	2 to 4 inches yearly
Foliage					
Summer Color	Golden Yellow	Autumn Color	Red Tinged		
Plant Attributes	Mounded with compact branches that is a durable and easy to grow. Yellow green foliage supports large clusters of Pink flowers from June to Frost. In fall the foliage turns red to end a long show.				

Spiraea, Van Houttei

Spiraea x vanhouttei

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 7

Height 6 feet **Spread** 4 to 5 feet **Growth Rate** 3 to 4 inches yearly

Foliage Pointed oval, about 2 inches long

Summer Color Green **Autumn Color** Bronze to Brown

Plant Attributes Vase shaped with upright, arching branches that is a durable and easy to grow. Dark blue-green foliage becomes covered in hundreds of small white flowers in Spring. Great for a foundation planting, hedge or a compliment for other plants.

Sumac, Cutleaf Staghorn

Rhus typhina 'Laciniata'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 9

Height 8 feet **Spread** 12 to 15 feet **Growth Rate** 6 to 10 inches yearly

Foliage Divided into 11 to 31 leaflets; 5 inches long

Summer Color Deep Green above, Grayish beneath **Autumn Color** Brilliant Scarlet to Orange

Plant Attributes Upright with spreading branches. Has deeply cut, green foliage that in fall turn vibrant Scarlet Red to Orange tones. New growth resembles deer antlers "in velvet". Not for small garden areas. Also produces upright pink/red berry clusters in fall.

Sumac, Gro-Low Fragrant

Rhus aromatica 'Gro-Low'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 9

Height 2 to 3 feet **Spread** 3 to 5 feet **Growth Rate** 4 to 8 inches yearly

Foliage Divided into 3 rounded leaflets, fragrant

Summer Color Glossy Dark Green **Autumn Color** Red to Purple

Plant Attributes Mounded with spreading branches. Durable plant for hot dry spots. Has aromatic foliage that in fall turn vibrant Scarlet Red to Orange tones. In spring small yellow flower clusters appear to develop into fuzzy berries that attract birds.

Sumac, Tiger Eyes

Rhus typhina 'Bailtiger'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 5

Height 6 feet **Spread** 6 feet **Growth Rate** 5 to 6 inches yearly

Foliage Divided into 11 to 31 leaflets; 5 inches long

Summer Color Chartreuse Green to Yellow **Autumn Color** Scarlet Red to Orange tones

Plant Attributes Upright with compact branches. Has deeply cut, Chartreuse Green foliage that in fall turn vibrant Scarlet Red to Orange tones. New growth resembles deer antlers "in velvet". Also produces upright pink/red berry clusters in fall.

Summer Sweet, Ruby Spice

Clethra alnifolia 'Ruby Spice'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4
Height	8 feet	Spread	4 feet	Growth Rate	4 to 6 inches yearly
Foliage	Coarse, pointed oval 3 to 4 inches				
Summer Color	Green	Autumn Color	Yellow		
Plant Attributes	Rounded with upright branches with dark green foliage that serves as a backdrop to spire shaped clusters of fragrant, Dark Pink flowers in Late Summer. Attracts Hummingbirds and Butterflies.				

Sweetspire, Little Henry

Itea virginica 'Sprich'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 9
Height	3 feet	Spread	3 feet	Growth Rate	6 inches yearly
Foliage	Narrow, oval, 4 inches long				
Summer Color	Green	Autumn Color	Vivid Red		
Plant Attributes	Upright with arching branches and dark green leaves give way to long pendulous spikes of white, fragrant flowers in the Spring and Summer. Then in fall a wonderful show of red fall color.				

Viburnum, Burkwood Snowball

Viburnum x burkwoodii

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 9
Height	6 to 10 feet	Spread	4 to 5 feet	Growth Rate	6 to 8 inches yearly
Foliage	Pointed oval, about 3 inches long				
Summer Color	Glossy dark Green	Autumn Color	Red, Purple and Orange tones		
Plant Attributes	Rounded with upright branches and glossy green foliage supports lots of sweet perfumed, snowball like clusters of Pink that fade to white flowers in Early Spring. Then in fall foliage turns red, orange and purple tones.				

Viburnum, Maries Doublefile

Viburnum plicatum tomentosum 'Mariesii'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 8
Height	6 to 8 feet	Spread	8 to 10 feet	Growth Rate	4 to 6 inches yearly
Foliage	Oval, toothed, 3 to 6 inches long				
Summer Color	Dark Green	Autumn Color	Reddish Purple		
Plant Attributes	Broadly rounded with horizontal branching and leathery green, lobed foliage supports fragrant, lace cap clusters of white flowers in Mid Spring. Can produce small red berries that attract birds. Then in fall foliage turns reddish purple.				

Viburnum, Onondaga

Viburnum sargentii 'Onondaga'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 4 to 7

Height 10 to 12 feet **Spread** 5 to 7 feet **Growth Rate** 5 to 6 inches yearly

Foliage 2 inches wide that are lobed

Summer Color Maroon turning to Green **Autumn Color** Maroon

Plant Attributes Rounded, upright branching that is great for year round interest with new growth starting maroon and maturing to green. Then in Late spring; lace cape clusters of white flowers shower the plant. Then in fall the leaves return to a maroon red color.

Viburnum, Pink Dawn

Viburnum x bodnantense 'Dawn'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 5 to 9

Height 6 to 10 feet **Spread** 6 to 8 feet **Growth Rate** 6 to 8 inches yearly

Foliage Oval, about 2 to 4 inches long

Summer Color Glossy, Dark Green **Autumn Color** Red and Purple tones

Plant Attributes Oval with upright branches that is one of the first to bloom in Late winter or Early spring with lots of loose clusters of Pink flowers. In fall has a great show of red and purple toned foliage.

Viburnum, Shasta Doublefile

Viburnum plicatum tomentosum 'Shasta'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 3 to 8

Height 6 feet **Spread** 10 to 12 feet **Growth Rate** 4 to 6 inches yearly

Foliage Oval, toothed, 3 to 6 inches long

Summer Color Dark Green **Autumn Color** Reddish Purple

Plant Attributes Broadly rounded with horizontal branching and leathery green, lobed foliage supports fragrant, lace cap clusters of white flowers in Mid Spring. Can produce small red berries that attract birds. Then in fall foliage turns reddish purple.

Viburnum, Summer Snowflake

Viburnum plicatum tomentosum 'Summer Snowfl'

Type Deciduous **Exposure** Full Sun to Partial Shade **USDA Zones** 5

Height 6 to 8 feet **Spread** 8 to 10 feet **Growth Rate** 4 to 6 inches yearly

Foliage Oval, toothed, 3 to 6 inches long

Summer Color Dark Green **Autumn Color** Red Tones

Plant Attributes Broadly rounded with horizontal branching and leathery green, lobed foliage supports fragrant, lace cap clusters of white flowers in Mid Spring till frost. Can produce small red berries that attract birds. Then in fall foliage turns reddish purple.

Weigela, Carnival

Weigela florida 'Courtalor'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 8
Height	3 to 4 feet	Spread	3 to 4 feet	Growth Rate	4 to 6 inches yearly
Foliage	Course, pointed oval 3 to 4 inches				
Summer Color	Green	Autumn Color	Bronze		
Plant Attributes	Upright with arching branches and green leaves compliment profuse, trumpet shaped, flowers that explode in red, white and pink tints in late spring.				

Weigela, Dark Horse

Weigela florida 'Dark Horse'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 8
Height	3 feet	Spread	3 feet	Growth Rate	3 to 5 inches yearly
Foliage	Coarse, pointed oval 3 to 4 inches				
Summer Color	Bronze with lime green venation	Autumn Color	Bronze to Brown		
Plant Attributes	Mounded, dense spreading habit that is a foliage interest with first its burgundy purple foliage and then in Late Spring; trumpet shaped, rosy pink flower appear along the stems.				

Weigela, Midnight Wine

Weigela florida 'Elvera'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 8
Height	10 to 12 inches	Spread	2 to 3 feet	Growth Rate	2 to 4 inches yearly
Foliage					
Summer Color	Burgundy Purple	Autumn Color	Bronze		
Plant Attributes	Mounded, dense spreading habit that is a foliage interest with first its burgundy purple foliage and then in Late Spring; trumpet shaped, rosy pink flower appear along the stems.				

Weigela, My Monet

Weigela florida 'Verwig'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 8
Height	12 to 18 inches	Spread	12 to 15 inches	Growth Rate	2 to 3 inches yearly
Foliage	Course, pointed oval 3 to 4 inches				
Summer Color	Green with White Margins	Autumn Color	Bronze to Brown		
Plant Attributes	Mounded with compact spreading branches and green with white margined leaves compliment profuse, trumpet shaped, pink flowers in late spring.				

Weigela, Red Prince

Weigela florida 'Red Prince'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 8
Height	5 to 6 feet	Spread	3 to 4 feet	Growth Rate	3 to 5 inches yearly
Foliage	Coarse, pointed oval 3 to 4 inches				
Summer Color	Medium Green	Autumn Color	Bronze to Brown		
Plant Attributes	Upright with arching branches and green leaves compliment profuse, trumpet shaped, red flowers in late spring and again in late summer.				

Weigela, Shining Sensation

Weigela florida 'Shining Sensation'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	5 to 8
Height	5 to 6 feet	Spread	3 to 4 feet	Growth Rate	3 to 5 inches yearly
Foliage					
Summer Color	Shiny Burgundy	Autumn Color	Bronze		
Plant Attributes	Upright, dense spreading habit that is a foliage interest with first its burgundy purple foliage and then in Late Spring; trumpet shaped, rosy pink flower appear along the stems.				

Weigela, Variegated

Weigela florida 'Varigata'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 8
Height	4 to 5 feet	Spread	6 to 8 feet	Growth Rate	4 to 6 inches yearly
Foliage	Coarse, pointed oval 3 to 4 inches				
Summer Color	Green with White margin	Autumn Color	Bronze to Brown		
Plant Attributes	Upright with arching branches and green with White edged leaves compliment profuse, trumpet shaped, pink flowers in late spring.				

Weigela, Wine & Roses

Weigela florida 'Alexandra'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 8
Height	3 to 4 feet	Spread	3 to 4 feet	Growth Rate	4 inches a year
Foliage	Coarse, pointed oval 3 to 4 inches				
Summer Color	Dark Burgundy Purple	Autumn Color	Bronze to Brown		
Plant Attributes	Upright with arching branches that is a foliage interest with first its burgundy purple foliage and then in Late Spring; trumpet shaped, rosy pink flower appear along the stems.				

Willow, Dappled

Salix x integra 'Hakuro Nishiki'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4
Height	3 to 5 feet	Spread	3 to 5 feet	Growth Rate	1 to 2 feet yearly
Foliage	Pointed oval; 1 to 2 inches long				
Summer Color	New growth Pink then to variegated Green & White		Autumn Color	Pink to Bronze	
Plant Attributes	Upright and open branching that is a great foliage interest. New growth is dappled with pink that matures to white to give foliage a marbled effect. Open and airy. Scorches in full sun.				

Willow, Dwarf Blue Arctic

Salix purpurea 'Nana'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	4 to 6
Height	3 to 4 feet	Spread	3 to 4 feet	Growth Rate	8 to 12 inches
Foliage	Small, narrow pointed				
Summer Color	Blue Green		Autumn Color	Yellow	
Plant Attributes	Rounded with dense, upright branches that is a year round compliment to the garden. First blue green foliage for spring and summer. Followed by a bright yellow fall color and then purple-black stems to provide some interest in the winter.				

Willow, Flame

Salix x 'Flame'

Type	Deciduous	Exposure	Full Sun to Partial Shade	USDA Zones	3 to 8
Height	20 feet	Spread	15 to 20 feet	Growth Rate	12 to 18 inches yearly
Foliage	Small, narrow and pointed				
Summer Color	Light Pale Green		Autumn Color	Golden	
Plant Attributes	Large, dense oval shrub for big areas or for a block. Pale green leaves with light orange stems during the growing season. Foliage is yellow for fall. The greatest part is for winter, the stems intensify to a bright orange to give color in the winter.				

Witch Hazel, Arnold's Promise

Hamamelis intermedia 'Arnold's Promise'

Type	Deciduous	Exposure	Full Sun to Partial Shade.	USDA Zones	5 to 9
Height	15 to 20 feet	Spread	10 to 15 feet	Growth Rate	10 to 12 inches yearly
Foliage	Oval, 2 to 3 inches				
Summer Color	Green		Autumn Color	Yellow to Orange tones	
Plant Attributes	Structurally appealing with a vase shape and naturally crooked, spreading branches. In Winter; lots of mop head like, yellow flowers appear to cover the branches. An added bonus is the Yellow to Orange tone fall color.				

Witch Hazel, Diane

Hamamelis intermedia 'Diane'

Type	Deciduous	Exposure	Full Sun	USDA Zones	5 to 9
Height	8 to 12 feet	Spread	8 to 12 feet	Growth Rate	10 to 12 inches yearly
Foliage	Oval, 2 to 3 inches				
Summer Color	Green	Autumn Color	Yellow to Orange tones		
Plant Attributes	Structurally appealing with a vase shape and naturally crooked, spreading branches. In Winter; lots of mop head like, coppery red flowers appear to cover the branches. An added bonus is the Yellow to Orange tone fall color.				

Witch Hazel, Jelena

Hamamelis intermedia 'Jelena'

Type	Deciduous	Exposure	Full Sun	USDA Zones	5 to 9
Height	10 to 15 feet	Spread	10 to 15 feet	Growth Rate	10 to 12 inches yearly
Foliage	Oval, 2 to 3 inches				
Summer Color	Green	Autumn Color	Yellow to Orange tones		
Plant Attributes	Structurally appealing with a vase shape and naturally crooked, spreading branches. In Winter; lots of mop head like, Orange flowers appear to cover the branches. An added bonus is the Yellow to Orange tone fall color.
