---

---

## Apple, 4 in 1 Espaliered Combo

---

**Type** Semi-dwarf combination fruit tree  
**Height** As Pruned **Spread** As Pruned **Growth Rate** Moderate  
**Fruit Size** Varies due to variety **Fruit Shape** Varies due to variety  
**Ripens** Staggering Based on Variety **Shelf Life**  
**Skin Color** Varies by variety grafted on tree. **Flesh** Varies due to variety  
**Flavor** Varies due to variety **Uses** Eating, cooking, desert  
**Comments** Self-fertile; Grafted Together: Golden Delicious, Braeburn, Gravenstien, or Red Delicious. Remember to spray regularly to keep Codling Moth Under Control. Ask for spray sheets inside. Thin fruit to one per spur.

---

---

## Apple, Liberty

---

**Type** Semi-dwarf fruit tree  
**Height** 12 to 15 feet **Spread** 12 to 15 feet **Growth Rate** Vigorous  
**Fruit Size** Medium **Fruit Shape** Round  
**Ripens** Early September **Shelf Life**  
**Skin Color** Red over Yellow **Flesh** Pale yellow and juicy  
**Flavor** Excellent **Uses** Eating and desserts  
**Comments** Not self fertile. Cross pollinate with another variety of Apple except for Gravenstien, Jonagold, Winesap, and Mutsu. Remember to spray regularly to keep Codling Moth Under Control. Ask for spray sheets inside. Thin fruit to one per spur.

---

---

## Apple, Pink Lady

---

**Type** Semi-dwarf fruit tree  
**Height** 8 to 12 feet **Spread** 8 to 12 feet **Growth Rate** Vigorous  
**Fruit Size** Medium **Fruit Shape** Round  
**Ripens** Late October **Shelf Life** Good  
**Skin Color** Red-Pink over Green **Flesh** White, resists browning  
**Flavor** Crisp, Sweet Flavor **Uses** Fresh eating and desserts  
**Comments** Not self fertile. Cross pollinate with another variety of Apple except for Gravenstien, Jonagold, Winesap, and Mutsu. Remember to spray regularly to keep Codling Moth Under Control. Ask for spray sheets inside. Thin fruit to one per spur.

---

---

## Cherry, 3 in 1 Combination

---

**Type** Semi-dwarf fruit tree  
**Height** 10 to 15 feet **Spread** 10 to 15 feet **Growth Rate** Vigorous  
**Fruit Size** Varies due to variety **Fruit Shape** Varies due to variety  
**Ripens** Varies due to variety **Shelf Life**  
**Skin Color** Varies due to variety **Flesh** Varies due to variety  
**Flavor** Varies due to variety **Uses** Eating, cooking, desert  
**Comments** Self fertile. Rainer, Bing, Lapin or Van grafted into one tree. Spray regularly for Western Cherry Fruit Fly. See Spray sheet inside.

---

---

## Cherry, 3 in 1 Combination 2

---

<b>Type</b>	Semi-dwarf fruit tree				
<b>Height</b>	10 to 15 feet	<b>Spread</b>	10 to 15 feet	<b>Growth Rate</b>	Vigorous
<b>Fruit Size</b>	Varies due to variety		<b>Fruit Shape</b>	Varies due to variety

---

## Fruit Salad Trees, 4 in 1 Combo

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet      **Spread** 10 to 15 feet      **Growth Rate** Moderate

**Fruit Size** Varies by variety      **Fruit Shape** Varies by variety

**Ripens** Varies by variety      **Shelf Life** Varies by variety

**Skin Color** Varies by variety      **Flesh** Varies by variety

**Flavor** Varies by variety      **Uses** Eating, canning, freezing, drying, frost resistant

**Comments** Self fertile. Gold Dust Peach, Independence Nectarine, July Elberata, Late Santa Rosa or Blenheim Apricot grafted into one tree. Thin fruit so it is spaced 5 to 6 inches apart on the branch

---

## Nectarine, Arctic Star

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Medium to Large      **Fruit Shape** Rounded

**Ripens** Early      **Shelf Life**

**Skin Color** Dark Red      **Flesh** Snow White

**Flavor** Super Sweet, low acid      **Uses** Eating, canning and cooking

**Comments** Self Fertile, Semi Cling. Thin fruit so it is spaced 5 to 6 inches apart on the branch

---

## Nectarine, Double Delight

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Medium to Large      **Fruit Shape** Rounded

**Ripens** Early to Mid July      **Shelf Life**

**Skin Color** Dark Red      **Flesh** Yellow; firm and smooth

**Flavor** Excellent, Sweet and full of flavor      **Uses** Eating, canning and cooking

**Comments** Self fertile, Free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch

---

## Nectarine, Fantasia

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet      **Spread** 10 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Large      **Fruit Shape** Round

**Ripens** Mid August to September      **Shelf Life**

**Skin Color** Bright yellow with 75% red blush      **Flesh** Smooth, freestone with firm texture

**Flavor** Excellent, sweet and juicy      **Uses** Eating and canning

**Comments** Self fertile, Free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch

---

---

## Nectarine, Firebright

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet

**Spread** 12 to 15 feet

**Growth Rate** Vigorous

**Fruit Size** Large

**Fruit Shape** Round

**Ripens** August

**Shelf Life**

**Skin Color** Yellow with red blush

**Flesh** Yellow; firm and smooth

**Flavor** Excellent

**Uses** Eating and canning

**Comments** Self Fertile, Semi Cling. Thin fruit so it is spaced 5 to 6 inches apart on the branch

---

---

## Nectarine, Flavortop

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet

**Spread** 10 to 15 feet

**Growth Rate** Vigorous

**Fruit Size** Large

**Fruit Shape** Ovate

**Ripens** Mid August

**Shelf Life**

**Skin Color** Bright Yellow with Red blush

**Flesh** Yellow; firm and smooth

**Flavor** Sweet and juicy

**Uses** Excellent flavor for fresh eating.

**Comments** Self fertile, Free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch

---

---

## Nectarine, Independence

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet

**Spread** 10 to 15 feet

**Growth Rate** Vigorous

**Fruit Size** Medium to Large

**Fruit Shape** Round

**Ripens** August

**Shelf Life**

**Skin Color** Deep Golden Yellow with Red blush

**Flesh** Yellow with fine texture

**Flavor** Sweet and juicy

**Uses** Eating and canning

**Comments** Self fertile, Free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch

---

---

## Nectarine, Juneglow

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet

**Spread** 10 to 15 feet

**Growth Rate** Vigorous

**Fruit Size** Medium to Large

**Fruit Shape** Round

**Ripens** Late June

**Shelf Life**

**Skin Color** Red blush

**Flesh** Yellow with fine texture

**Flavor** Full flavored and sweet

**Uses** Eating and canning

**Comments** Self fertile, Free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch. Also frost hardy.

---

---

## Nectarine, Red Gold

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet      **Spread** 10 to 15 feet      **Growth Rate** Moderate

**Fruit Size** Very Large      **Fruit Shape** Round

**Ripens** August to September      **Shelf Life**

**Skin Color** Bright Yellow with a Red blush      **Flesh** Yellow with a firm texture

**Flavor** Rich      **Uses** Eating and canning

**Comments** Self fertile, Free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch

---

---

## Peach, 3 in 1 Combo Curl Resistant

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet      **Spread** 10 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Varies by variety      **Fruit Shape** Varies by variety

**Ripens** Varies by variety      **Shelf Life**

**Skin Color** Varies by variety      **Flesh** Varies by variety

**Flavor** Varies by variety      **Uses** Eating, cooking

**Comments** Self fertile, Free stone to semi freestone. Frost, Indian Free, Muir or Q-1-8 grafted on one tree. Peach Leaf Curl Resistant Thin fruit so it is spaced 5 to 6 inches apart on the branch

---

---

## Peach, Autumn Star

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet      **Spread** 10 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Large      **Fruit Shape** Round

**Ripens** Early to Mid September      **Shelf Life** Good

**Skin Color** Yellow with 80% Blush      **Flesh** Yellow, with a firm texture

**Flavor** Sweet with some Tang      **Uses** Eating, cooking

**Comments** Self fertile, Free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch. Buds are very hardy. Resistant to Bacterial Spot.

---

---

## Peach, Red Star

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet      **Spread** 10 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Large      **Fruit Shape** Round

**Ripens** Early August      **Shelf Life**

**Skin Color** Yellow with a Red Blush      **Flesh** Yellow and juicy

**Flavor** Great      **Uses** Eating, canning and cooking

**Comments** Self fertile, Free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch. Hardy buds with a resistance to canker and bacterial spot.

---

---

## Peach, Reliance

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet      **Spread** 10 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Medium to Large      **Fruit Shape** Round

**Ripens** Mid July      **Shelf Life**

**Skin Color** Yellow with a Red Blush      **Flesh** Yellow

**Flavor** Sweet and flavorful      **Uses** Eating, canning and cooking

**Comments** Self fertile, Free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch. Buds are frost resistant.

---

---

## Peach, Risingstar

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet      **Spread** 10 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Medium to Large      **Fruit Shape** Round

**Ripens** Late July      **Shelf Life**

**Skin Color** Yellow with 80% red blush      **Flesh** Yellow

**Flavor** Pleasant sweet and acid ratio      **Uses** Eating, canning and cooking

**Comments** Self fertile, Semi-free stone. Thin fruit so it is spaced 5 to 6 inches apart on the branch. Hardy buds with a resistance to canker and bacterial spot.

---

---

## Pear, 3 in 1 Disease Resistant Combination

---

**Type** Semi-dwarf fruit tree

**Height** 10 to 15 feet      **Spread** 10 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Varies by Variety      **Fruit Shape** Varies by Variety

**Ripens** Varies by Variety      **Shelf Life**

**Skin Color** Varies by Variety      **Flesh** Varies by Variety

**Flavor** Varies by Variety      **Uses** Eating, canning and cooking

**Comments** Self fertile. Warren, Kieffer, Harrow Delight, Blake's Pride. Fireblight Resistant Varieties. Spray Regularly for Codling Moth. See spray chart inside. Thin fruit to one per spur.

---

---

## Pear, Anjou

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Moderate

**Fruit Size** Large      **Fruit Shape** Oblong

**Ripens** August to September      **Shelf Life** Up to 9 months

**Skin Color** Greenish to light Yellow      **Flesh** Yellowish white with firm texture

**Flavor** Sweet, juicy and rich      **Uses** Eating and canning

**Comments** Not self fertile: cross with Bosc or Bartlett. Spray Regularly for Codling Moth. See spray chart inside. Thin fruit to one per spur.

---

---

### Plum, 3 in 1 Combination

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Moderate

**Fruit Size** Varies by Variety      **Fruit Shape** Varies by Variety

**Ripens** Varies by Variety      **Shelf Life** Varies by Variety

**Skin Color** Varies by Variety      **Flesh** Varies by Variety

**Flavor** Varies by Variety      **Uses** Eating

**Comments** Self Fertile. Nubiana, Elephant Heart, Late Santa Rosa, Laroda, or Beauty grafted into one tree. Thin plums to be space 5 to 6 inches apart.

---

---

### Plum, Beauty (Japanese)

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Moderate

**Fruit Size** Medium to Large      **Fruit Shape** Round

**Ripens** Early August      **Shelf Life** Good

**Skin Color** Red over amber      **Flesh** Amber

**Flavor** Sweet and flavorful      **Uses** Eating

**Comments** Self Fertile. produces best with a cross, Satsuma or other Japanese Plums. Thin plums to be space 5 to 6 inches apart.

---

---

### Plum, Golden Nectar (European)

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Moderate

**Fruit Size** Medium to Large      **Fruit Shape** Oblong

**Ripens** September      **Shelf Life**

**Skin Color** Amber Yellow      **Flesh** Yellow

**Flavor** Very Sweet      **Uses** Eating, dessert

**Comments** Self fertile. Can cross with other European Plums. Thin plums to be space 5 to 6 inches apart.

---

---

### Plum, Santa Rosa (Japanese)

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Moderate

**Fruit Size** Large      **Fruit Shape** Round

**Ripens** Mid August      **Shelf Life** Good

**Skin Color** Dark Red to Crimson      **Flesh** Yellow; firm and delicious

**Flavor** Sweet with a tartness      **Uses** Eating and canning

**Comments** Self Fertile, will cross with any Japanese Plum. Thin plums to be space 5 to 6 inches apart.

---

---

## Pluot, 3 in 1 Combination

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Varies by Variety      **Fruit Shape** Varies by Variety

**Ripens** Varies by Variety      **Shelf Life** Varies by Variety

**Skin Color** Varies by Variety      **Flesh** Varies by Variety

**Flavor** Varies by Variety      **Uses** Eating

**Comments** Self Fertile, Flavor King, Flavor Queen, Flavor Supreme or Dapple Dandy grafted into one tree. Thin plums to be space 5 to 6 inches apart.

---

---

## Pluot, Dapple Dandy

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Medium      **Fruit Shape** Egg shaped

**Ripens** August      **Shelf Life**

**Skin Color** Greenish Yellow with Red Spots      **Flesh** Red/White

**Flavor** Sweet plum apricot flavor      **Uses** Eating

**Comments** Not Self fertile, cross with a Japanese Plum or another Plout. Thin plums to be space 5 to 6 inches apart.

---

---

## Pluot, Flavor Supreme

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Medium      **Fruit Shape** Egg shaped

**Ripens** Mid July      **Shelf Life**

**Skin Color** Greenish maroon with mottled pattern      **Flesh** Red

**Flavor** Sweet plum apricot flavor      **Uses** Eating

**Comments** Not Self fertile, cross with a Japanese Plum or another Plout. Thin plums to be space 5 to 6 inches apart.

---

---

## Prune, Early Italian (European)

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet      **Spread** 12 to 15 feet      **Growth Rate** Vigorous

**Fruit Size** Large      **Fruit Shape** Oval

**Ripens** Mid Season      **Shelf Life**

**Skin Color** Purple Black      **Flesh** Yellow

**Flavor** Sweet      **Uses** Eating, canning and cooking

**Comments** Partially Self fertile, produces heavier when cross pollinated with another European Plum. Thin plums to be space 5 to 6 inches apart.

---

---

## Prune, Stanley (European)

---

**Type** Semi-dwarf fruit tree

**Height** 12 to 15 feet

**Spread** 12 to 15 feet

**Growth Rate** Moderate

**Fruit Size** Medium and heavy bearing

**Fruit Shape** Round

**Ripens** Late August to September

**Shelf Life** Good

**Skin Color** Dark Blue

**Flesh** Greenish-Yellow, juicy and tender

**Flavor** Firm and sweet

**Uses** Cooking and fresh eating

**Comments** Partially Self fertile, produces heavier when cross pollinated with another European Plum. Thin plums to be space 5 to 6 inches apart.

---

---

## Walnut, Black

---

**Type** Nut tree

**Height** 50 to 60 feet

**Spread** 50 feet

**Growth Rate** 2 to 3 feet yearly

**Fruit Size** Very Large

**Fruit Shape** Oval

**Ripens** October

**Shelf Life**

**Skin Color** Hard Shell

**Flesh** Oval and meaty kernel

**Flavor** Excellent

**Uses** Eating, cooking

**Comments** Self fertile

---

---

## Walnut, Carpathian English

---

**Type** Nut tree

**Height** 50 to 60 feet

**Spread** 50 feet

**Growth Rate** 2 to 3 feet yearly

**Fruit Size** Medium to Large

**Fruit Shape** Round

**Ripens** October

**Shelf Life**

**Skin Color** Thin shell, easy to crack

**Flesh** Round and meaty kernel

**Flavor** Excellent

**Uses** Eating, cooking

**Comments** Self fertile
